SUBJECT: April Gross Receipts Tax and Recent Labor Market Indicators

Gross Receipts Tax
Attached please find the monthly dashboard for April GRT collections. For the month, the City’s GRT revenue in the General Fund totaled $2,171,955 which was $83,120 above the projection. Year-to-date there is a positive budget to actual variance of $641,460 or 2.7 percent. Compared to the prior fiscal year, the cumulative variance is $424,567 or 1.8 percent.

GRT trends for each major industry are shown in Table 4 of the Dashboard on the next page. Sectors with positive growth compared to FY 2016 for the same period are health care and social assistance at 10.7 percent, accommodation and food services at 8.3 percent, professional, education and other services at 6.1 percent, retail trade at 4.7 percent, information and cultural industries at 2.6 percent and the “other” category at 0.7 percent. In contrast, and most significantly, finance, insurance and real estate and manufacturing sectors are contracting 32.8 percent and 25.7 percent respectively. Other industries that are contracting are medical distribution at 9.2 percent, food distribution at 7.3 percent, and utilities, transportation and warehousing at 4.3 percent. Construction, is still showing negative growth of 7.9 percent compared to the same period in fiscal year 2016. The food distribution experienced a large swing from the positive year to date change reported in March of 3.5 percent versus a 7.3 percent negative change year to date in April as compared to the prior fiscal year. The cause of this is likely due to significant fluctuations in the food distribution in FY 2016 in the months of March and April which are skewing the comparative numbers.
