HOMEOWNER’S RESPONSIBILITIES FOR ANY TYPE OF ALTERATION OR CONSTRUCTION MADE TO A RESIDENTIAL BUILDING

A Homeowner’s Permit carries serious responsibilities and is not appropriate for everyone. Please read each of the following statements. If you agree with a statement and your answer to it is "yes", then place a check mark in the appropriate box. If you do not answer, "yes" to every statement, you should **seriously reconsider** applying for a Homeowner’s Permit.

After marking each item and signing this form in the presence of a Notary Public, you are required to submit this checklist with your Building Permit application package. This signed checklist will be kept on record with the permit application as proof of your assumption of the risks and liabilities associated with a Homeowner’s Permit. Call or visit your State or local office as to other required submittals.

Check the appropriate box:

- I plan to build a single-family home that will be owned and occupied by myself.
- I plan to alter, repair or make improvements to a home owned and occupied by me.
- I plan to build or improve a free-standing storage building 200 sq ft or more located on my residential property

**HOMEOWNER'S RESPONSIBILITIES FOR ANY TYPE OF ALTERATION OR
CONSTRUCTION MADE TO A RESIDENTIAL BUILDING**

D Yes D No	I understand that if I do not carry Workers' Compensation insurance, I may be financially responsible if any of my employees are injured while working on my premises. This financial liability will include employee(s) for whom I was not required to carry Workers' Compensation insurance.
D Yes D No	If I hire a subcontractor and he does not carry Workers' Compensation, I understand I may be financially responsible if any of his workers are injured while working on my premises.
D Yes D No	If I hire a "construction manager" or "superintendent" or "foreman" to oversee my work, I understand such person will be my employee, and I will pay him hourly wages and no other form
D Yes D No	If I hire a "construction manager" or "superintendent" or "foreman" to oversee my work, I understand that, as the homeowner-builder, I am still the responsible party for compliance with all building codes and construction requirements and for the quality and completion of all contracting work performed under my Homeowner's Permit by my subcontractor(s),
D Yes D No	If I hire a GB-2 or GB-98 licensed contractor to supervise my work, I must void my Homeowner's Permit. The licensed contractor must permit the project under his own
D Yes D No	I understand that if I do not want to be responsible for the quality and completion of all work on my home and for compliance with all building codes and construction requirements, I should not obtain a Homeowner's Permit. Rather, I should hire a licensed general contractor to take over those responsibilities.
D Yes D No	If I am building my own home and during the process of building, I decide not to own and/or occupy the home when it is completed, I understand I am no longer eligible for a Homeowner's Permit. At that time, I will immediately cancel my Homeowner's Permit and hire a licensed general contractor to complete the work.
D Yes D No	I understand my Homeowner's Permit is only for general construction building. Any electrical, mechanical or plumbing work must be permitted separately.
D Yes D No	I understand electrical and/or a properly licensed contractor must perform plumbing work unless I have demonstrated my ability to do such work by passing a homeowner's examination administered by the electrical or plumbing inspector for the jurisdiction in which I am building my home. This includes: (1) Having my submitted plans approved and (2) obtaining all required permits and calling for all required inspections.
D Yes D No	I understand that, under no circumstances, can I perform HVAC or natural gas work under my Homeowner's Permit, and I must hire an appropriately licensed subcontractor who will obtain his own permit for performing such work.
D Yes D No	I understand that if I hire a subcontractor to do the electrical and/or plumbing work, that subcontractor must obtain his own permit for his portion of the work.

154.05 R-1: SINGLE-FAMILY RESIDENTIAL DISTRICT.

(A) *Purpose.* This district permits a low density of population in which the primary land use is a single-family dwelling unit.

(B) *Permissive uses.*

(1) One single-family dwelling unit per lot; provided such dwelling unit meets the following design standards:

(a) All dwelling units shall be permanently affixed to a permanent foundation. No dwelling unit shall be temporary in nature. Permanent foundations for dwelling units that are not site built shall comply with New Mexico Manufactured Housing Division Rules and Regulations (NMAC 14.12.2) for permanent foundations.

(b) Each dwelling unit must have either an attached or detached private garage structurally affixed to a permanent foundation of sufficient size to at a minimum park automobiles and/or light trucks. The number of parking spaces shall be in accordance with off-street parking requirements. The garage shall have an external appearance and finish-treatment similar to and consistent with the dwelling unit and shall be completed and issued a certificate of occupancy no later than 12 months after occupation of the dwelling unit.

(c) Each dwelling unit shall have a roof meeting one of the following minimum criteria:

1. A pitched roof with a minimum slope of two and one-half inches in every 12 inches and no less than six-inch overhangs.
2. A flat roof with parapets at least six inches in height above the finished roof.

(d) These overhang, roof pitch and private garage requirements shall not apply to any dwelling unit, building or structure constructed or installed prior to December 23, 1999. Notwithstanding the above, conversions of pre-existing or post December 23, 1999, private garages are prohibited unless another private garage is constructed to replace the converted private garage.

(e) Each single-family dwelling unit shall have exterior siding and roofing which, in color, materials and appearance, is comparable to the predominant materials in use on surrounding dwelling units, or if there is no predominance, is similar to the exterior siding and roofing material commonly in use on residential dwelling units in the community as a whole.

(f) All dwelling units must face the address street or create a presence on the address street. Street presence can be created by including elements such as windows, site walls, gates, portals, courtyards and landscaping in the architectural design or site plan.

(g) All front steps necessary for access due to a difference in grade between the front door and/or the floor of the dwelling unit and finished grade shall be permanently installed and shall be constructed of stone, concrete or masonry materials.

(h) An all-weather driveway shall be constructed from the property line to the private garage or carport, or to any other area designated for off-street parking in accordance with Section [154.22](#).

(i) All utility service and distribution lines shall be placed underground. All liquid propane installations shall be either behind the primary structure from the address street or placed underground.

(j) Sites shall be prepared in such a manner that positive drainage of surface water is maintained and directed away from the dwelling unit as per state regulations.

(k) With the exception of subsection (B)(1)(b) of this section, all requirements of this subsection shall be completed within a reasonable time after occupation of the dwelling unit not to exceed 120 days;

(2) Accessory buildings or structures, including accessory dwelling units but not to include structures for livestock or fowl; provided such accessory buildings or structures meet the following design standards:

(a) Accessory buildings and structures shall not exceed the height of the primary structure or 24 feet, whichever is greater;

(b) The exterior of any accessory building and structure encompassing more than 250 square feet shall be constructed of materials similar in color and appearance to those used in the primary structure or has a facade similar to that of the primary structure. Accessory structures greater than 600 square feet shall be constructed of the same materials or have the same facade as the primary structure;

(c) Accessory buildings shall not exceed 75% of the size of the primary house or 15% of the lot area, whichever is greater;

(d) By definition, an accessory building may not be constructed without the existence of the primary structure; the dwelling unit

1. CALCULATE VALUATION:

SFR:	\$67.21	RESADD:	\$41.99
GARSHD:	\$23.18	PORCAR:	\$13.64

- Residential:
Square footage¹ X \$67.21² = valuation
(i.e. 2,000 SF X 67.21 = \$134,420.00)
- Commercial:
Square footage¹ X \$73.63³ = valuation
(i.e. 5,000 SF X 73.63 = \$368,150.00)

1. Square footage = EVERYTHING UNDER THE ROOF
2. Group R3, Type VB = \$74.67 X .90 (NM Modifier) = \$67.21
3. Group B, Type VB = \$81.81 X .90 (NM Modifier) = \$73.63

2. CALCULATING BUILDING PERMIT AND PLAN REVIEW FEES:

August 23, 2006

Dear Builders and Developers,

On July 26, 2006 the Rio Rancho City Council approved the following changes to the existing Residential and Commercial Collection Ordinance Chapter 50, Section 7, to reduce windblown and misplaced waste from construction sites in Rio Rancho.

Commercial Collection:

Subsection B,1(d): The contractor shall collect all solid waste except special or hazardous wastes, which is contained inside the approved receptacle with lid or approved covering to be serviced for that premises. The solid waste shall not exceed the receptacle capacity and the container's lid or covering must be closed and secured when not in use. The owner shall not place any solid waste in any area other than the solid waste container.

Construction Debris:

Subsection C, 2(a): All construction sites shall have a method of containment, with a covering or lid that will be secured when not in use, for construction debris to prevent the debris from blowing or scattering upon the site or adjacent property and streets. The method of containment shall meet with the approval of the Sanitation Officer.

The existing ordinance required developers, builders and their agents to ensure that building sites have an approved container with lid for collecting and storing all construction site wastes as they are generated, for disposal . In order to ensure builders and their agents are better able to comply with this ordinance, these changes expand the requirement of a lid on all containers to include "approved coverings" such as tarps and other durable materials that will cover and completely contain construction site waste while the container is not actively being used.

In order to avoid citations at your building sites, please make sure that this information is passed on to all of your staff and agents, including subcontractors and laborers, at your current and future sites. Thank you for your compliance.

Sincerely,
Dyane N. Sonier
